

2019
UNIQUE/COMMERCIAL
ASPHALT PAVING
AWARDS PROGRAM
(for 2018 work)

December 7, 2018

Dear Producers and Laydown Contractors,

Our Quality Asphalt Paving Awards program has been acclaimed as a true recognition of the best.

After the successful recognition of Quality Paving on our County Roads and State Highways, the consensus was to expand the awards program to include commercial parking facilities, local roads or streets, airport paving and special use pavements.

The attached nomination form is forwarded for your review and use. These awards have a different set of criteria from the other ARDOT awards program.

Please give your best paving project for 2018 a review and submit for judging **by Friday, February 1, 2019.** Electronic submissions may be sent to office@arasphalt.com.

The winners' names will be announced at the AAPA Annual Convention being held March 26-28, 2019, in Memphis, TN. Winners will also be recognized at the AAPA regional paving award events in May and June of 2019.

If you have any questions, please call the AAPA office at (501) 219-1100.

Arkansas Asphalt Pavement Association
COMMERCIAL QUALITY PAVING AWARD
Nomination Form

Project Category (indicate which category the nomination is being submitted)

- Commercial Parking Facility
- Local Road or Street
- Airport Paving
- Special Use Pavement (i.e. bikeways, raceways, etc.)
- Other _____

Location (Please include map from Mapquest or other source. Provide project limits.)

Description (suggested information: type of work, work significance, pavement makeup, unique constructability issues, or other)

Tonnage of HMA Materials Placed:

Description and amount of recyclable material used in project:

Description of Quality Control Measures Performed (Please include/attach information regarding the quality control measures performed at the mixing facility during production, and quality control measures performed in the field during the time of placement. These include: QC reports, density testing results, profilograph measurements, etc.)

Contractor Name and Contact Person:

(Contractor name) _____
(Contact name) _____
