Cooking Rules: Each team is responsible in providing their own meats for the categories they wish to participate in (Chicken, Pork Ribs, and Pork Shoulder). Each team is permitted to prepare their entries as they see fit. With this being an amateur event there will be no prior inspection of cooking apparatus or meat selection. Each category will be judged on three attributes (**Appearance, Texture/Tenderness, Taste**) and those will be scored on a scale of 2 (low) to 9 (high). ***Each category winner will be announced after the Pork Shoulder is judged.***

Category Winner:

- The category winner will be determined by the highest score per entry
- The overall score is determined by the sum of the 3 criteria per entry
- In the case of a tie, the winner will be determined by their **appearance score**
- If the appearance score is equal, then **a coin flip** will determine the winner

Overall Champion:

- The top 3 teams in each category will receive points:
1st place – 6 Points, 2nd place – 4 Points, 3rd place – 2 Points
- The sum of these points will determine the Overall Champion
- Tie goes to the team that participated in the most categories
- If category participation is equal, then an **average of appearance score** will determine the winner
- If the appearance score average is equal, then **a coin flip** will determine the winner
- The overall champion will receive the champion belt, which they may keep until the next year's cook-off. At that point, the belt will be given to the next overall champion

Judging / Turn-In Times / Criteria: The information on page 3 is the criteria the judges will be looking for in each category.
